Technologies

JavaScript | HTML | CSS | SQL | TypeScript | Python | Rust | JSON | Markdown | YAML | XML

Node | React | MaterialUI | Vite | Websockets | Tailwind | shadcn/ui | Django | Pandas

REST | JWT | OAuth 2.0 | WebAuthn | SOAP | GraphQL

PostgreSQL | Git | Linux | AWS | Docker | System Design | Platform Development | Unit Testing | CI/CD Pipelines |

Cookies | Local Storage | PWAs | SPAs | Snowflake | Jenkins

Experience

Prime Digital Academy

February 2023 - June 2025

Software Engineer & Instructor

- Modern full stack technologies: PostgreSQL, Express, JavaScript, React, Node, HTML, CSS, CI/CD, MaterialUI, Vite, Socket.IO, Tailwind, shadcn/ui, REST, JWT, OAuth 2.0, WebAuthn, Git, Unit Testing, CI/CD Pipelines, SPAs, PWAs, and Markdown.
- Teach web development to students with zero coding background, from what a variable is up to shipping full stack applications that solve problems for real clients.
- Sharpen skills as a team leader, manager, coach, mentor, and advocate.
- Cultivate strong relationships with students, using empathy to meet them where they were at as developers.
- Strong ability to productively self-manage time, while helping others manage their time remotely.
- Create high quality lectures, example repositories, and exercises, targeted to the needs of the students.

Augeo Marketing

January 2022 - December 2022

Senior Backend Software Engineer

- Technologies: Rust, Git, system design at scale, platform development, Unit Testing, YAML, and Docker.
- Produce a large volume of code in a tight timeframe, in a new language, in an immature ecosystem.
- Make decisions about technology choices, and navigate the challenges of an immature package ecosystem.

SPS Commerce

May 2016 - February 2022

Software Engineer (April 2021 - February 2022)

- TypeScript, Git, SuiteScript, Unit Testing, CI/CD Pipelines.
- Leading without formal authority, sharing and standardizing industry best practices.
- Revamp onboarding, mentor new developers, and create documentation governance.

Associate Software Engineer I/II (April 2019 - April 2021)

- Python, AWS, YAML, SQL, Django, Pandas, data manipulation, Jenkins, Snowflake, sourcing data from various REST, SOAP, and GraphQL APIs, Docker, CI/CD Pipelines, Unit Testing, OAuth 2.0, and efficiently handling large quantities of data.
- Build internal tools, including multiple data pipelines powering BI dashboards.

Consultant I/II (May 2016 - April 2019)

- XML, JSON, SOAP APIs, data mapping.
- Guided customers towards explaining the details of their business model and data needs, while leading a small distributed team to implement system integrations and custom data mapping.

Public Talks

2024

- “From Passwords to Passkeys, the evolving state of User Authentication.” - **Minnebar 18 mainstage**
- “The world is more complex than we think.”
- “Reflecting on my path.”

2023

- “Digital safety practices.”
- “Artisans of code.”
- “Bootstrapping remote leadership: Lessons learned and problems I'm still chewing on.”

2022

- “When to say Yes! - The art of taking on new projects.”
- “I want a good, clean fight - How to disagree professionally.”
- “What I do, describing the role of a software engineer.”

2021

- “The life changing magic of bubbling up, or: Exceptional exceptions and Erroneous Errors.”
- “Zoom 2.0 - Best Practices, Tips, and Tricks.”
- “Early lessons in leadership.”

Education

2016 - Certificate in Full Stack Web Development from Prime Digital Academy.

- Mongo, Express, AngularJS, Node, PostgreSQL, Rest, JWT, SPAs.

2015 - BS in Mathematics, (emphasis: physics and computer science) from UW-Milwaukee.

- Senior Thesis: “Implementing the RSA algorithm in code from scratch.”

Discover More About Me

Dungeons & Dragons

2014 - Current

Years of running public games for strangers, organizing large events, philanthropy, and community building.

- Started running games for public play campaigns, 2016 - Current
- Started and organized a public play program at Fantasy Flight Game Center, 2016 - 2018
- Fundraise for Gillette Children's Hospital, through public gamedays and conventions, 2017 - 2020

Toastmasters

2016 - Current

Almost a decade of public speaking, mentoring, and leadership.

- Club Secretary, 2018 - 2019
- Club President, 2020 - 2021
- Area Director, 2021 - 2022
- Officer Mentor, 2022 - Current

Independent Learning

2018 - Current

- Self taught woodworker and Homelab/IoT enthusiast.

Communicator. Systems thinker in the realms of people, process, and technology. Builder of products, teams, and communities. I help others grow while learning new things and collaborating to solve difficult problems.

~ Andrew Harasymiw ~
